GWYN

EMPEROR PENGUIN

ABOUT GWYN

Gwyn is adventurous and determined Emperor Penguin who works in a group as Emerald miner in the icy depths of Arctic. With various skills, personalities and distinctive appearances, Gwyn stands out among other fellow penguins. Years of physical labor in the mines have made them strong and resilient.

Having been born into a family of miners, Gwyn's passion for exploration and digging was shaped by their family from the young age. Growing up in the frigid Arctic environment, they are fascinated by the mysterious sources hidden beneath the glaciers.

Drawn by their curiosity, they are determined to uncover the treasures which led them to becoming an expert in mining the Emerald. Over the years, They decided to dedicate their life as skillful Emerald miners.

During their free time, Gwyn enjoy exploring the Arctic landscape observing wildlife, and fishing. Their dreams of discovering a legendary emerald that would bring prosperity to their community and secure the Gwyn name in mining history. Their ultimate goal is to contribute to the preservation of the ecosystem while uncovering the hidden wonders of the icy depths.

● PERSONALITY

Gwyn is characterized by their optimism, invincible spirit, and curiosity.

As a group they are constantly seeking new challenges and discoveries even in the harsh conditions of the mining environment.

Gwyn's positive outlook and cheerful manners serve as a source of encouragement for his colleagues and they take responsibilities seriously, ensuring that safety protocols are diligently followed.

● OCCUPATION

As emerald miner, Gwyn fearlessly navigates through tunnels and caverns equipped with specialized tools such as pickaxes, drills, and safety gears.

Their exceptional strength, agility and sharp eyesight enable them to spot emerald deposits and efficiently extract them from the rocky walls of the mine.

Gwyn's sharp mind and quick reflexes help them to handle unexpected situations whereby their swimming skills allow them to navigate icy waters with ease.

THE GWYN PET APP

At the core of Gwyn lies the revolutionary Gwyn Pet App. Users can adopt and care for their own Gwyn pets, each endowed with distinct attributes that shape their growth and value.

VIRTUAL PET MINER

Mint your Gwyn Pet NFT and start earning as you nurture and shape them to be the best emerald miners.

Hunger Meter

When this gauge empty, your pet is hungry, feed them before they lost their mood.

Regular feeding ensures your pet's contentment and well-being.

Stamina Meter

Various activities like fishing and mining consumes your Gwyn's energy
Recover energy by sleeping inside the igloo

Happiness / Love Meter

Gauges the pet's love and bonding state towards you. Happier pets experience slower stamina consumption and increase mining productivity

Experience

Indicates the pet's mining proficiency. The more they do working activities like fishing or mining, the more they gain experience

The higher the experience, the bigger results they can achieve when they do mining or fishing.

INTRODUCTION

A unique combination of an innovative virtual pet
is now coming to the blockchain technology.
You can now interact and earn with your loved GWYN pet.
Nurture them and love them to gain
maximum results in the mining station.

GWYN TOKENOMICS

The Gwyn ecosystem relies
on the \$GWYN token.
With a fixed supply and advanced
gamified economics
the token is deflationary
by design.
The auto-burn mechanism
on each in-game
transactions ensures
the stability of the token value.

Seed	4.00%	20,000,000.00
Private	8.00%	40,000,000.00
Public Sale	20.00%	100,000,000.00
Ecosystem	16.00%	80,000,000.00
Affiliates & Partnerships	4.50%	22,500,000.00
Treasury	2.50%	12,500,000.00

Marketing	5.00%	25,000,000.00
Liquidity	20.00%	100,000,000.00
Total	100.00%	500,000,000.00

ENGAGING GWYN PET ACTIVITIES

Users will partake in various activities to foster their Gwyn pets' development:

MINING

To optimize Emerald mining ability from the pets mining activities , you need to nurture the pet through various activities.

FEEDING

Feed your pet before their hunger meter is low to maintain its well-being and happiness.

FISHING

Allow the pet to fish in the pond , gathering fishes as food to ensure sufficient food stock.

SLEEPING

Allow your pet rest in the igloo to recover their stamina to be able to do upcoming activities.

WALKING

Accompany your pet to walk to increase happiness and enhances its overall growth.

PETTING

Give attention in form of physical touch to boost the happiness / love meter.

GWYN ROLES

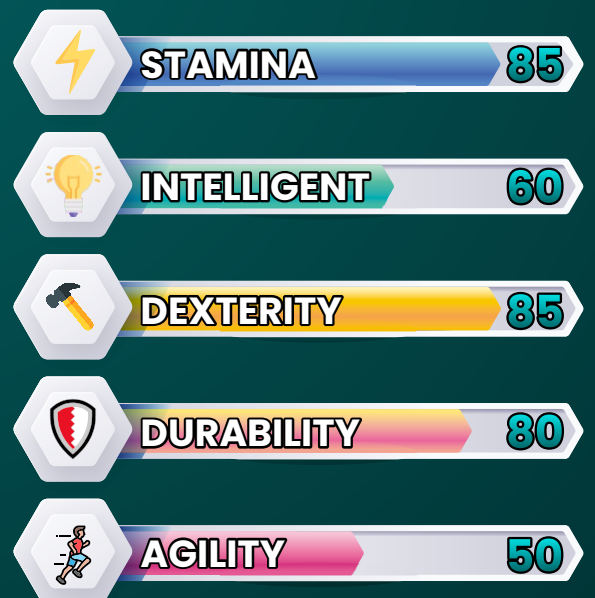

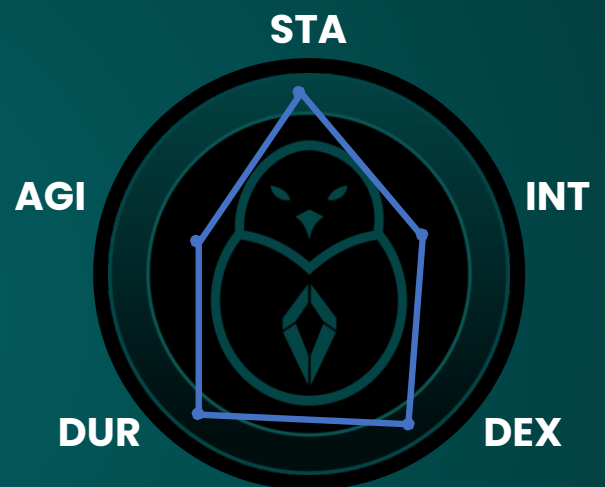

Gwyn introduces specialized roles for the pets enriching the gameplay in the ecosystem.

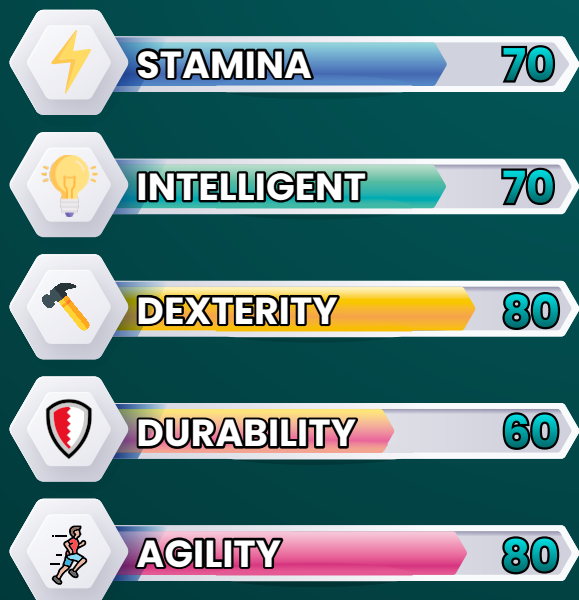

MINER

Miner pets possess strong field mining ability and endurance. This enabling them to collect resources efficiently.

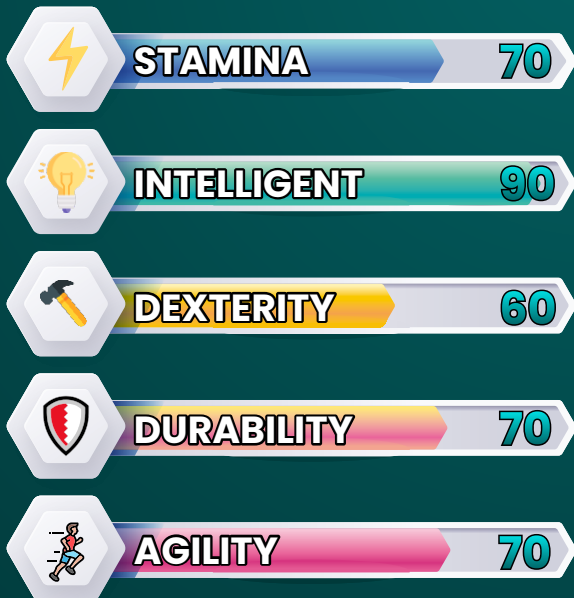

GEOLOGIST

Geologist can assume the Geologist role, studying geological formations to identify prime mining sites.

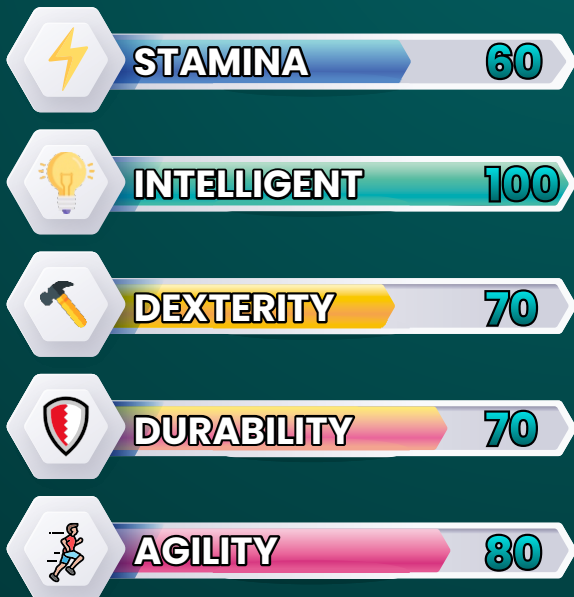

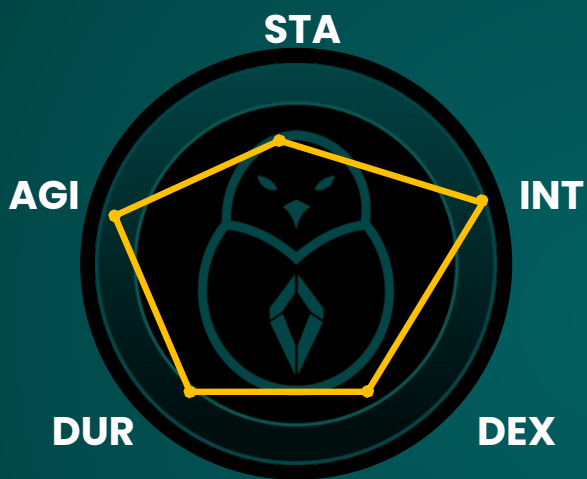

TREASURE HUNTER

Treasure Hunter can embark on exploration quests, uncovering hidden passages and valuable artifacts.

FOREMAN

Foreman can oversee mining operations,
allocate tasks, and maintain operational efficiency

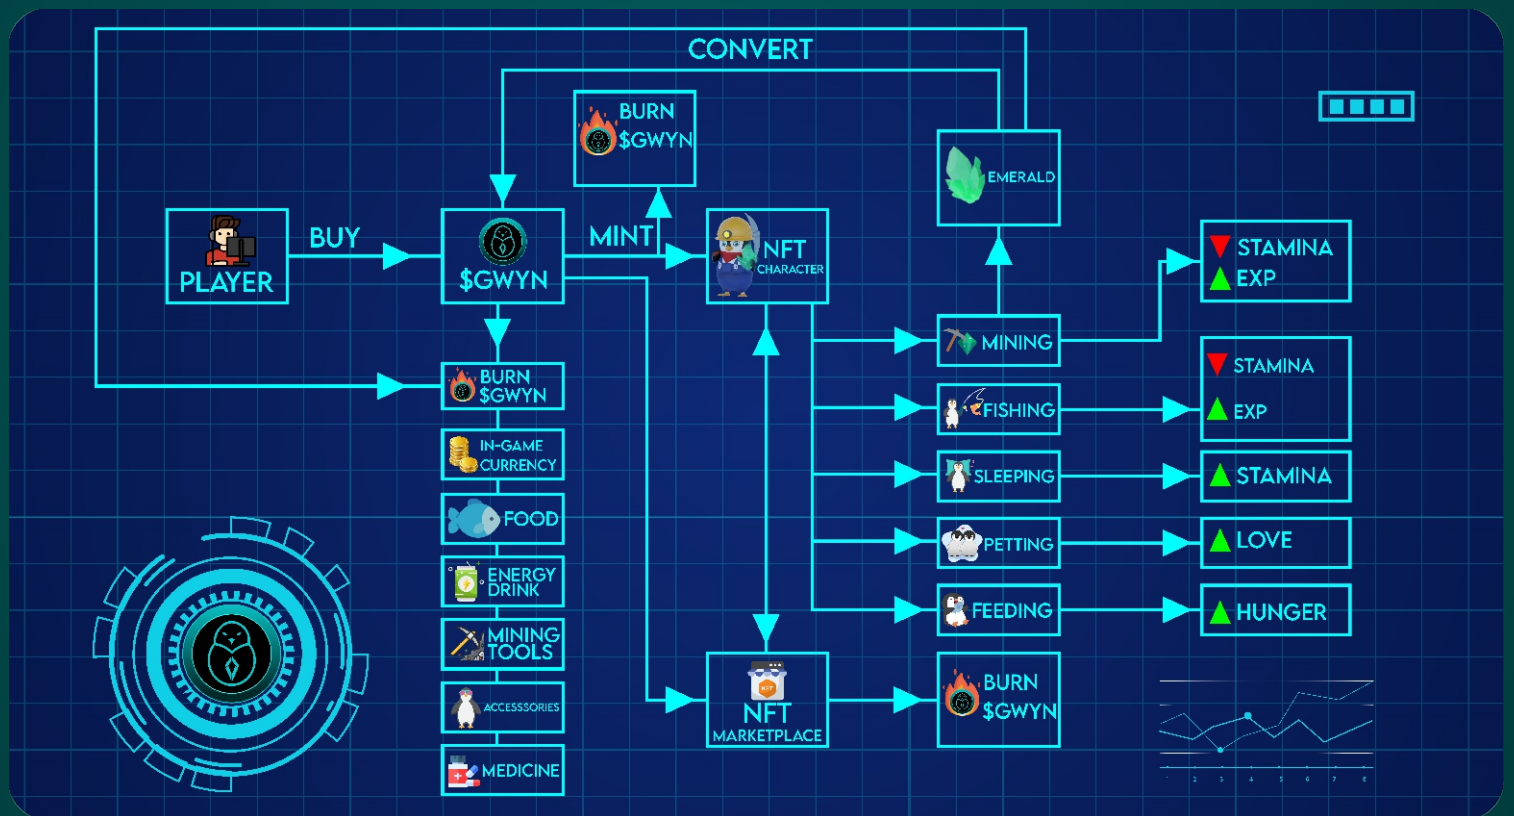

GWYN NFTS

GAME ECONOMY

THE GAME ECONOMY HAS BEEN DESIGNED TO ENSURE THE GRADUAL SCARCITY OF THE \$GWYN TOKEN OVER TIME. THIS IS ACHIEVED THROUGH THE IMPLEMENTATION OF A BURN MECHANISM IN EVERY ON-CHAIN TRANSACTION, CAUSING THE \$GWYN SUPPLY TO DECREASE PROGRESSIVELY.
